

Object-oriented Programming 101

Today starts as a Paper + Pencil or Tablet + Pencil day... please keep laptops stowed away!

COMP110 - CL19

2024/04/16

Warm-up: Collaborate with a Neighbor

This will be today's attendance submission (CL19). Group submissions (up to 3 in a group) OK!

Task: Imagine you are opening a new Pizza shop on Franklin Street.

1. What *attributes* of a Pizza order do you allow your patrons to customize?

- **Specify these as name : type where type is a Python data type we have used**

2. Given those *attributes*, specify the two Pizza orders you believe will be most popular.

3. What will your pricing model be for a given Pizza?
